1. Nature of Operations and Going Concern

West Melville Metals Inc. (“West Melville” or the “Company”) was incorporated on May 3, 2011, pursuant to the Business Corporations Act of British Columbia, Canada. The Company was initially incorporated as 0909493 B.C. Ltd. and changed its name to West Melville Iron Company Ltd. on May 26, 2011. On January 17, 2012, the Company changed its name to West Melville Metals Inc. The Company’s head office is located at Suite 1020, 800 West Pender Street, Vancouver BC, Canada, V6C 2V6. The Company’s common shares are publicly listed on the Toronto Stock Exchange’s Venture Exchange (the “Exchange”) under the symbol “WMM”.

West Melville is an exploration stage enterprise and is exploring its mineral interest in Greenland with the objective of identifying economically recoverable reserves and bringing the property to the extraction and processing stage.

The Company has not yet determined whether the property being explored contains economically recoverable mineral reserves. The recoverability of the amounts capitalized as exploration and evaluation assets is ultimately dependent upon the existence of economically recoverable ore reserves, securing and maintaining title and beneficial interest in the property, obtaining necessary financing to continue to explore and develop the property, and upon future profitable production or proceeds from disposition of the mineral property. The amounts shown as exploration and evaluation assets represent costs incurred to date, and do not necessarily represent current or future fair values. Values realized from exploration and evaluation assets may be substantially different from carrying values as recorded in these financial statements.

These condensed consolidated financial statements have been prepared on a basis which assumes that the Company will be able to continue its operation as a going concern for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. At March 31, 2015, the Company had not achieved profitable operations, had an accumulated deficit of \$9,151,791 (December 31, 2014 - \$9,092,745) since inception, expects to incur further losses as it develops its business and explores its mineral property interest, and will be required to raise additional financing to maintain its operations, all of which indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

The ability of the Company to carry out its planned business objectives and continue as a going concern is dependent on its ability to raise adequate financing from lenders, shareholders and other investors and/or generate operating profitability and positive cash flow from its mineral property interest. There can be no assurances that the Company will be able to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows from its future operations. If the Company is unable to obtain adequate additional financing, the Company would be required to curtail its planned operations and exploration and development activities which may impact the Company’s ability to maintain its mineral property interest.

The condensed consolidated financial statements do not include any adjustments relating to the recorded amounts and classification of assets and liabilities should the Company be unable to continue as a going concern.

2. Significant Accounting Policies, Basis of Presentation and Principles of Consolidation

These condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The accounting policies followed in these condensed consolidated interim financial statements are the same as those applied in the Company’s most recent annual financial statements for the year ended December 31, 2014. The condensed interim consolidated financial statements do not include all of the information required for full annual financial statements.

The policies applied in these condensed consolidated interim financial statements are based on IFRS issued and outstanding as of May 22, 2015, the date the Board of Directors approved the statements.

During the three month period ended March 31, 2015, the Company wound up its two wholly owned inactive subsidiaries Isortoq Holdings and Thule Holdings. These consolidated financial statements include the accounts of the Company’s wholly owned subsidiaries until March 31, 2015. All intercompany balances and transactions have been eliminated upon consolidation.

Greenland Agreement

The Isortoq Property is located in south Greenland, approximately 100 kilometres west of the Narsarsuaq International Airport, and consists of four licenses issued by the Greenland Bureau of Minerals and Petroleum (the “Licenses”). The Isortoq Property contains a mineralized geological feature that is being evaluated for its potential to host an economic deposit of iron, titanium and vanadium.

Pursuant to the Greenland Agreement, as subsequently amended by the parties to the agreement, Hunter Minerals Pty Ltd. (“HMP”), an arm’s length foreign entity, agreed to sell to the Company, and the Company agreed to purchase the Isortoq Property. During the year ended December 31, 2011 the Company paid a non-refundable deposit of US \$400,000 to HMP on signing of the Greenland Agreement. In accordance with the amendments to the Greenland Agreement, during the year ended December 31, 2012 the Company paid \$832,875 (being 15% of the gross proceeds raised by the Company’s initial public offering (“IPO”)), issued 1,007,800 units, with each unit comprising one common share and one common share purchase warrant, and made a payment of US \$250,000. Each common share purchase warrant issued to HMP is exercisable into one common share for a period of five years at \$0.50 per common share.

On November 15, 2013 the Company and HMP executed an amending deed to the Greenland Agreement whereupon signing, HMP agreed to transfer the Isortoq Project licenses to the Company in exchange for a future payment of US \$1.4 million. On June 20, 2014, the Company and HMP executed a final amending deed to the Greenland Agreement whereupon signing, the US \$1.4 million final payment as well as a previously agreed Royalty Agreement were cancelled.

The project area was reduced by 109 square kilometers by dropping license EL#2012-35 in 2013. No field work was conducted on the Isortoq Property during the three month period ended March 31, 2015.

On February 6, 2015 the Mineral Licence and Safety Authority of Greenland approved the legal transfer of Exploration Licences 2009/15 and 2009/35 from HMP to West Melville. The Company owns 100% of the Isortoq Property clear of any third party royalties.

Project Evaluation

During the three month period ended March 31, 2015, the Company incurred project evaluation expenses of \$9,710. As the Company has not acquired the legal rights to explore potential new projects or has decided not to pursue the potential projects, project evaluation costs have been expensed as incurred.

5. Share Capital

Authorized Share Capital

At March 31, 2015, the authorized share capital comprised an unlimited number of common shares without par value.

Issued Share Capital

Private Placement - 2014

On August 28, 2014, the Company closed the second tranche of a non-brokered private placement consisting of 1,120,000 units at a price of \$0.05 per unit for gross proceeds of \$56,000.

On July 31, 2014, the Company closed the first tranche of a non-brokered private placement consisting of 4,880,000 units at a price of \$0.05 per unit for gross proceeds of \$244,000.

Each unit consisted of one common share and one common share purchase warrant. Each common share purchase warrant may be exercisable into one common share for a period of three years from closing at a price of \$0.15 per share. The securities were subject to a four month hold period.

Share issuance costs included 124,600 shares and 124,600 finder's warrants with the same terms as the warrants issued under the private placement. The finder's warrants have a fair value of \$3,912. The Company is using the proceeds of this private placement to conduct metallurgical test work on the Isortoq Property and for general working capital purposes.

Other Share Issuance – 2014

On February 14, 2014, the Company issued 200,000 common shares with a fair value of \$22,000 in relation to an extension of the Fraser Bay Option Agreement.

Escrowed Securities and Resale Restrictions

Pursuant to an escrow agreement dated February 22, 2012, the Company's directors and executive officers and certain other shareholders (collectively the "Principals") agreed to deposit in escrow the 10,353,800 common shares held by them prior to the IPO. The escrow agreement provides that the escrowed common shares will be released from escrow as to 70% on the date which is two years from the initial Listing Date of July 23, 2012 and the remaining securities in equal blocks of 15% at six month intervals thereafter. In addition to the common shares deposited in escrow prior to the IPO, 1,007,800 Units issued subsequent to the IPO as part of the acquisition of the Isortoq Property in Greenland are subject to the same escrow terms. As of March 31, 2015, 1,704,240 common shares (December 31, 2014 – 3,408,480 common shares) remained in escrow in accordance with the escrow agreement.

5. Share Capital – Continued

Issued Share Capital – Continued

In addition to the two year hold period described above, 11,750,000 common shares held by non-Principals are subject to resale restrictions in accordance with the policies of the Exchange, as follows: 2,245,000 are subject to a three year restriction with 10% released on the Listing Date and 15% every six months thereafter; 750,000 are subject to a two year restriction with 20% released on the Listing Date and 20% each six months thereafter; and 8,755,000 common shares subject to a four month hold period pursuant to which 20% will be released on the Listing Date and 20% each month thereafter. As of March 31, 2015, 336,750 common shares (December 31, 2014 – 673,500 common shares) remained subject to the resale restrictions.

Warrants

Details of outstanding warrants are as follows:	Number of Warrants	Weighted Average Exercise Price
Outstanding warrants, December 31, 2013	12,452,163	\$ 0.24
Issued	6,124,600	0.15
Expired	(649,363)	0.50
Outstanding warrants, March 31, 2015 and December 31, 2014	17,927,400	\$ 0.20

At March 31, 2015, the Company had outstanding warrants enabling the holders to acquire common shares as follows:

Expiry Date	Weighted Average Exercise Price	Number of Warrants	Weighted Average Remaining Contractual Life in Years
May 28, 2015	\$0.20	10,795,000	0.16
July 29, 2017	\$0.15	5,004,600	2.33
August 3, 2017	\$0.50	1,007,800	2.35
August 28, 2017	\$0.15	1,120,000	2.41
Weighted average exercise price and remaining contractual life	\$0.20	17,927,400	1.03

The fair value of finders warrants issued during the 2014 year was estimated using the Black-Scholes Option Pricing Model with the following assumptions:

Estimated risk-free rate	1.25%
Expected volatility	139%
Estimated dividend yield	0.0%
Expected life of warrants	3 years
Share price	\$0.04-\$0.05

West Melville Metals Inc.
(An Exploration Stage Company)

5. Share Capital – Continued

Stock Options

Under the Company's stock option plan, the board of directors may grant options for the purchase of up to 10% of the total number of issued and outstanding common shares of the Company. Options granted under the plan vest over time at the discretion of the board of directors and expire no later than ten years from the date of issuance. Exercise prices on options granted under the plan cannot be lower than the market price of one common share on the last trading day immediately preceding the day on which the option is granted, less the maximum applicable discount permitted by the Exchange.

The changes in stock options issued are as follows:

	Number	Weighted Average Exercise Price
Outstanding December 31, 2013	2,940,000	\$0.50
Issued	2,675,000	0.05
Expired / cancelled without exercise	(375,000)	0.50
Outstanding March 31, 2015 and December 31, 2014	5,240,000	\$0.27

At March 31, 2015, the following stock options were outstanding:

Expiry Date	Weighted Average Exercise Price	Number of Options	Vested and Exercisable Number of Options	Weighted Average Remaining Life in Years
February 23, 2022	\$0.50	2,565,000	2,565,000	6.91
December 3, 2019	\$0.05	2,675,000	2,675,000	4.68
Weighted average exercise price and remaining contractual life	\$0.27	5,240,000	5,240,000	5.77

The fair value of stock options issued during the 2014 year was estimated using the Black-Scholes Option Pricing Model with the following assumptions:

Estimated risk-free rate	1.60%
Expected volatility	150.1%
Estimated dividend yield	0.0%
Expected life of options	5 years
Share price	\$0.01

For all valuation models, the risk-free rate of return is the yield on a zero-coupon Canadian Treasury Bill of a term consistent with the assumed option life. The expected volatility is based on the Company's historical prices. The expected average option life and expected forfeitures are based on management's best estimate of the Company's options. The weighted average fair value of the options granted during the three month period ended March 31, 2014 was \$0.01 per stock option. No stock options were granted during the three month period ended March 31, 2015 and no stock based compensation expense was incurred (2014 – nil).

6. Financial Risk Management

Fair value of financial assets and liabilities

The fair value of the Company's cash and cash equivalents, other receivables, GST recoverable and accounts payable and accrued liabilities approximate their carrying value which is the amount recorded on the consolidated statement of financial position due to their short term to maturity.

Fair value hierarchy

Financial instruments measured at fair value are categorized within a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value of financial instruments. The three levels of the fair value hierarchy are as follows:

Level 1 - unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full contractual term.

Level 3 - Inputs for the asset or liability are not based on observable market data.

The Company has no financial assets or financial liabilities measured in the statement of financial position at fair value or included in Levels 2 or 3 of the fair value hierarchy.

Overview

The Company has exposure to credit risk, liquidity risk and market risk from its use of financial instruments.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

Credit risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to its cash and cash equivalents, other receivables and GST recoverable. Management believes that the credit risk concentration with respect to financial instruments included in cash and cash equivalents, and GST recoverable is remote as they relate to deposits and interest from a major financial institution and GST recoverable from the Government of Canada. The maximum credit risk as at March 31, 2015 was \$24,770 (December 31, 2014 - \$73,563).

6. Financial Risk Management - Continued

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations and commitments as they become due. The Company ensures that there is sufficient capital in order to meet short term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. Management believes that the Company has sufficient funds to meet its obligations as they become due or will be able to obtain financing as required to meet its obligations and commitments (see also note 1).

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and commodity and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company does not currently have any significant interest or equity price risk as it has no significant interest bearing financial instruments nor does it hold any investments in equities of another entity.

Foreign currency risk

In the normal course of business, the Company enters into transactions for the purchase of supplies and services and acquisition of mineral properties, denominated in a currency other than the functional currency of the Company. As a result, the Company is subject to foreign exchange risk from fluctuations in foreign exchange rates. The Company has not entered into any derivative or other financial instruments to mitigate this foreign exchange risk. The Company does not have any significant currency risks associated with its financial instruments at March 31, 2015.

Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern so that it can provide returns and benefits for shareholders and advance the exploration of its mineral properties.

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity, comprising share capital and contributed surplus, net of accumulated deficit. The Company depends on external financing to fund its activities and may issue new equity instruments to maintain its capital structure. The Company manages its capital structure through the preparation of operating budgets, which are approved by the Board of Directors.

There were no changes in the Company's approach to capital management during the three month period ended March 31, 2015.

The Company is not subject to any externally imposed capital requirements.

7. Related Party Transactions

Key management personnel compensation

Key management personnel consist of the Company's directors and officers. In addition to management and consulting fees paid to these individuals, or companies controlled by these individuals, the Company provides non-cash benefits to an executive officer. The aggregate value of compensation with key management personnel for the three month period ended March 31, 2015 was \$27,871 (2014 - \$54,400) and was comprised of the following:

	Three month period ended March 31, 2015	Three month period ended March 31, 2014
Wages, salaries and consulting fees	\$ 26,200	\$ 52,760
Non-cash benefits	1,671	1,640
	\$ 27,871	\$ 54,400

Related party transactions and balances not disclosed elsewhere in these financial statements are as follows:

During the three month period ended March 31, 2015, the Company reimbursed \$3,380 of office expenses and salaries incurred by a company controlled by a director of the Company (2014 - \$1,111).

During the three month period ended March 31, 2015, the Company reimbursed companies with common directors and key management \$721 for salaries, consulting and office costs incurred on behalf of the Company (2014 - \$3,380).

The balance receivable from related parties at March 31, 2015 was \$11,038 (December 31, 2014 - \$11,038).

The balance payable to related parties at March 31, 2015 was \$10,496 (December 31, 2014 - \$2,137) and is included in accounts payable and accrued liabilities. These payables are unsecured, non-interest bearing and are expected to be repaid under normal trade terms.

The amounts charged to the Company for the services provided have been determined by negotiation among the parties and, in certain cases, are covered by signed agreements. These transactions were in the normal course of operations and were measured at the exchange value, which represented the amount of consideration established and agreed to by the related parties.

8. Segmented Information

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. All of the Company's operations are within the mineral exploration sector and the Company's operations are segmented by the location of its mineral properties.

As at March 31, 2015 and for the three month period ended March 31, 2015
